Forecast For East Midlands
Issued by Met Office Exeter
at 0400 on Tuesday 23 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly dry and cloudy. Becoming breezy.

Today:
A mostly cloudy day, with a few sunny spells possible in eastern areas, although likely fewer than of late. Generally dry for most, but the odd spot of drizzle possible over the Peak District. Becoming breezy through the day. Maximum temperature 13 deg C (55 deg F).

Tonight:
Mostly cloudy and breezy, with the odd clear spell during the evening. Some rain moving southeastwards later in the night. Minimum temperature 5 deg C (41 deg F).

Wednesday:
A cloudy start with outbreaks of rain for many. Rain clearing later in the morning to give sunny spells for the afternoon. Becoming breezier. Maximum temperature 13 deg C (55 deg F).

Outlook for Thursday to Saturday:
Increasingly windy Thursday, Friday with outbreaks of rain or heavy showers. Becoming cold Friday with showers wintry over the Peak District. Still cold Saturday, but winds easing and fewer showers.
